#### A Letter from the Editor

#### Dear Manual Staff and Students,

Welcome to the revival of The Ivian: The Emmerich Manual High School yearbook! In the past four years without a yearbook here a lot has happened at Manual. Construction has been totally completed; Theatre, Choir, and Band programs have regenerated. Manual has also seen the return of our newspaper and the return of the yearbook. This is not to mention all of the other amazing clubs and sports that have taken off. It seems like almost everything has started a new beginning.

A year ago Manual was making headlines because of unfortunate circumstances in which a young man's life was sadly taken. The year before that, we made headlines twice because of weapons found here. It almost became a stigma to go to Manual because of situations like this. But since September our school has gotten a different kind of news coverage. Matthew Tully, a writer for the Indianapolis Star, decided to shine a light of hope on our school.

In the months since that first article, which questioned our ability to succeed, our student body has shown him just how determined we were to make sure the readers of the paper know what we were really made of. Some students responded negatively, some chose to respond in a more positive manner.

From those articles many Alumni have decided to come back to their former high school to make a difference in our current students' lives. They want us to have the kind of spirit they did when they were here. With the recent loss of our football team it has become even harder to find spirit here at Manual. Much has changed since the doors of Emmerich Manual Training High School opened, but that does not mean our school spirit must wane like it appears.

This is a time in our lives as students where everything is changing no matter what grade you are in, but we should remember we are all changing together. High school is a new beginning from middle school. If you are a senior it guides you to a scary new world of independence and real life. For our school the return of past students has given us more opportunities than we could have ever asked for; or dreamed of. They came back to revive our tired, downtrodden Redskins to become the inspirational and valiant student body we once were. We would like to thank any one who never stopped believing in our school; with out you Manual would not have this New Beginning: A Redskins Revival.

Editor-in-Chief, Allison Tomlinson

#### History and Tradition

"In 1909 the traditional Ivy Day celebration was instituted. Urged by one of the teachers, Miss Beatrice Foy, to begin this custom, the class gathered on April 30th,1909, to plant a sprig of ivy. The lass members then marched four abreast around the building singing the 'Ivy Song,' composed for the occasion by Ralph E. Finley, the class poet.

"Succeeding classes plant ed ivy vines until the whole west wall of the building was covered with the mixture of ivies This tradition continued until Manual moved to its new location on Madison Avenue."

SENIORS

I would like to thank my mother and father for all that they have done for me. Although my father is not here today I still know that he is looking over me and he will watch me walk across the stage. Without their support I would not have made it to my senior year. I would also like to thank Ms. H., Ms. Johnston, Ms. Stradford and also Mr. Davis. I feel that all of you have better prepared me for college. Thank you all for also helping me be a better person. The advice that I have for the freshmen, sophomores and the juniors is to never give up. Always try and keep your head up. ISU, here I come baby! Amber Tewell

I want to thank the Manual High School staff, teachers and everyone who has helped me through four years of high school. All the teachers I had were the best. I had the best time through these four years of struggles, laughter and stress. My life became easier due to all the support from the teachers and staff. My diploma is thanks to all of you.

#### **Anaisa Ana Aviles**

I would like to take this time to thank everyone at Manual for their support throughout my four years of high school. I have grown a lot during my time here and I have learned a lot of things. I am thankful for those teachers who have pushed me to be the best person that I can be and not giving up on me when I felt like giving up on myself. Now it is time for me to further my education at the University of Indianapolis!

De'Auntae Miller

To everyone that is left at Manual, farewell and good luck. I would like to thank the teachers that I have had these past four years for all the insight and help they've given me. To the friends that I have made I wish you the best of luck and enjoy your future. As I leave Manual, I would like to exclaim my thoughts about the school itself. My senior year was a bit rocky with all the bad press and rumors. It upset me what outsiders said about my school. They have no clue what goes on inside the walls of this building. I liked this school. Sure it had it's ups and downs but every school does. This year was better for education than any other year, people just don't apply themselves as they should. Off the negativity, the class of 2010 has had an amazing year with Manual and now it is the class of 2011's turn! Ashley Ellison

The past four years at Manual High School have been a roller coaster of emotions and activity. With the help of my friends and teachers, I was able to make it through all four years with very little trouble. Mrs. Lord has been one of my biggest helps, along with Mr. Crover. They taught me to go out of my comfort zone and try new things. Mrs. Johnston has been a big help with math and has helped me to better understand all of the formulas. Also I would like to thank Mrs. Stradford, Ms. Winslow, and Ms. Haughwout for making English class fun and enjoyable. College will not be the same without all my friends, and I am grateful to them for sticking by me and helping me when I'm down. Purdue will be a whole new adventure! Ashley Justice

I would like to thank the staff at Manual for being so supportive. I believe that I'm prepared to enter a college and will do well. Ms. Grady, thanks for helping with several scholarships to help me pay for college. Ms. Johnston, thanks you for allowing me to redo quizzes and for being a great math teacher. Ms. Stradford, thanks for the laughs and for making your class challenging. I used to pray that I would not get you because of the stories I'd heard about you and your classes. I finally ended up having you my senior year and it was not as hard as I'd heard, but it was challenging. And I want to thank you for that challenge! Taleesha Ford

Manual may be talked about negatively by a lot of people but to me it really has not been that bad. Yeah there are many students here that could care less where they end up in five years but there are also students as dedicated to their school work as students from any other school. Manual has given me great opportunities and plenty of excellent memories that I will never forget. Kayla Maher

As I look back on my time at Manual, I can not believe that it's coming to an end. I've had good times and bad times. I have met a lot of people and made a lot of friends. I have learned new things and I have been refreshed on things that I had learned before. I have met a lot of wonderful teachers and some that I really did not get at first but eventually came to understand. As for the people that I've met over the years, I wish you all a long and happy life and may all of you have a wonderful year with whatever it is that you are doing next year! Willie Smith

I would like to take the time out to give a special thanks to everyone at Manual for these last 4 years. It has not been easy but I did it. There have been many times that I said I cannot do this or I cannot do that, I give up. But I'm glad I tried and I did not give up. I had those that stuck by my side and said, "Yes you can, Marshaya. You can do it." My family, friends, and teachers -you guys have made a great impact on my life and my future Thanks so much. I never would have made it with out you people. CLASS OF 2010! Marshaya Hawkins

We, as SENIORS have spent thirteen years in school for a handshake and a piece of paper (known as a high school diploma.) These past fours felt like a lifetime, but we finally made to graduation. I would like to thank all the teachers I've had over the years who helped me become what I am. If it were not for you, I would probably not be graduating. I would like to thank the SENIOR sponsors, Ms. H and Ms. Winslow for making our last year memorable. I would also like to say thank you to my friends. You helped make this the best year with all the funny lunch-table talks. I loved dancing and singing really off-tune in Mrs. McManama's class. I would like say good luck to Mr. Grismore and Ms. Franklin at their new jobs and also to Ms. Owens for becoming principal next year. Melissa Smith

#### Good Bye Redskins?

The Redskins above building up their energy for one of the big games of their last season.

Majority of the students were shocked when the news of Manual's football team being cut hit the school. Some students felt that the cut was necessary while others were hurt and outraged. There has been a rally to revive Manual's Football team that was organized by alumni and supported by students. Despite these efforts, Redskins have yet to hear any news about the revival of the team.

I am going to have to find something to do Friday nights now."

-Ms. Haughawout

Pictured on the left is one of Manual Sports' biggest supporters, Haughawaout. She was extremely displeased when she found out her fvorite sport was cut "I can't imagine working in a school that does not have football. I hate it for the current and futures players. And, I am to have going something to do Friday nights now."

# Manual Redskins Team Cut

Interviews with students on how they feel about the recent cut of the Manual Redskin's Football Team

"Well personally I lost a lot of good friends from the cut. Everyone on that team was a great person and when they cut the team they all moved so it broke up all of the friends I had made. Also it gives me less of a chance on other school football teams because they already have the guys they really need."

"I feel that the football team being cut was the biggest mistake that Dr. White could make. Being a cheerleader for four years and then taking away our football team really irritates me. It bothers me that they can take kids dreams away and not bare a second chance! If they want to play, let them play!"

"Canceling the football team was a ridiculous idea. Even though there wasn't many students who actually played, it is still a big part of any high school and they took something important away from many Manual students and the community."

"I think cutting out football in a school with very minimal student pride doesn't send a very good message for future students of Manual. What will more money do for our school if our student body is cut in half?"

-Chris Hamaker (Football Player) -Tricia Tharpe (Cheerleader)

-Kevin Carpenter (Senior)

-Joshua Edwards (Junior)

# The Theatre Class

This year the in-school theatre class put on two performances for the school. The first show consisted of many different small acts put together to make the entire show. The second show was "Teenage Night of Living Horror". These photos show the theatre students practicing lines, building sets, and setting lights for each performance.

# ImPrOv cLuB

This year at Manual, the Improv Club was introduced to the school. It was met with great approval and was comprised mostly Manual's freshmen. The program was run by Mr. Flis, though he received help from other teachers. They had numerous competitions and performances where audience members were encouraged to participate and join in on the fun. Not pictured here is photographer and member Daphne Dods.

Welding

Many of the members of the welding classes became certified welders this year. Those that were seniors are now able to join the work force with a large advantage. Most of their success this year was due to Mr. Wiley, the welding instructor.

Agriculture STAR Academy

The STAR Academy Agriculture classes have done many exciting projects this year. At the beginning of the first semester they held a picnic and game day for those in the magnet program. In December they went caroling for the elderly. All year long they cared for many animals: thirty chickens, two guinea-pigs, one turtle, and hundreds of fish which were eventually served at a fish fry. The STAR Academy requires many other projects besides their own curriculum, which the students must complete. The students submitted posters, power points, and science fair projects to various places for prizes and grades.

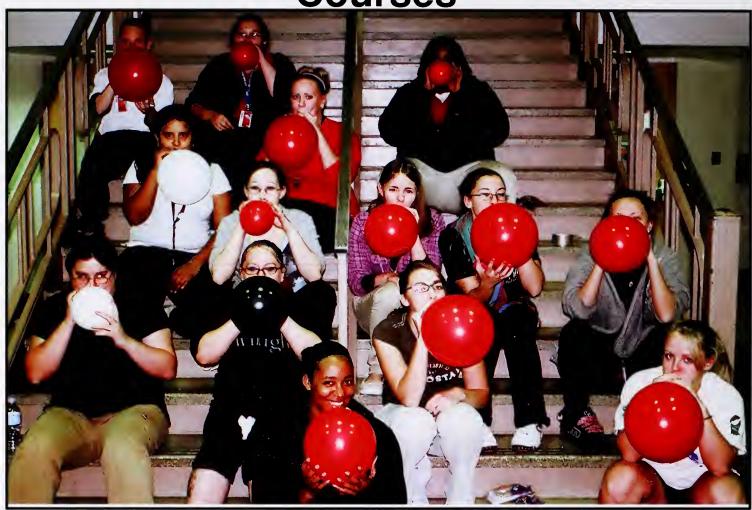

# Advanced Placement and Duel Credit Courses

Susan Lynn and Andrea Stanarevic working out equations in their AP Calculus class.

Shenylle Fields studying hard for her Advanced Placement English class.

Christopher Rhynearson watching Ms. Johnston during one of her lessons on AP Calculus.

AP Classes or Advanced Placement classes and Duel Credit courses are year-long classes that challenge students to a more rigorous high school curriculum and offer credit for some college courses. The work load is strenuous and material is difficult to understand. All of this in the end, however, benefits the students in preparing them for college and the work place. The students in the classes this year have said they enjoyed these classes the most and found them the most interesting classes they have ever taken.

#### Yearbook

This year's staff is pleased to be able to present the first yearbook in four years to Emmerich Manual High School. Creating this yearbook has been a challenge. Between an extremely small and busy staff and a semester's late start we struggled to make this yearbook become everything we wanted it to be, but we think we have succeeded. We hope you agree.

Enjoy the memories.
- The Yearbook Staff

## **JROTC**

#### The JROTC Showcase

The JROTC program was formed in 1916 as part of the national defense act. Soon the program spread across the country and eventually was adopted by Emmerich Maunual as the first school in the state to sponsor the program. Today the JROTC has bloomed into an exceptional program formed of students from all walks of life. The program's goal is to motivate young people to be better citizens. In addition the program also instills the importance of education for current and future generations.

1 Freshman Kristina Critelli leads the IDR team in practice. 2 The IDR Team practices marching 3 The manual color guard presenting the Nation's color at a home game. 4 The JROTC color guard practicing for a basketball game.

# Win Redskins!

This year there were many changes to the line-up of The Redskins football team but they never quit striving for success. There were many dedicated players on this team but it did not stop the decision of the school board to cut the team from Manual entirely. Many of the players and students took this news hard. The 2009-2010 season in football will be remembered as the last for Manual, at least for now.

Some of the Manual Redskins listening to the coach give them advice and support during a football game.

Clockwise from top left: This epic photo captures some of the fearless preparation before a game. - 2 Faith Lovelace cheering at a basketball game.
- **3** Tricia Tharpe preparing the squad for a new cheer.
- 4 The entire squad at a boy's basketball game.
- 5 Eries Moore and Tricia Tharpe posing for a picture in between cheers.

As a senior graduating cheerleader that has been on the team all four years, how do you feel about cheerleading?

Tricia Tharpe: "Being a varsity cheerleader for the past four years has meant so much to me. I remember before my freshman year would go to the football games to watch my brother but I would only watch the cheerleaders so when tryouts came I knew most of the cheers! When I made varsity as a freshman I could not explain the excitement I felt! As the years continued things started to get rough. We were losing a lot of girls. This really broke the team's spirit down, and it continued until senior year where we ended up with five girls by the time basketball season was over. Although we only had five girls, they were all dedicated and hard working girls. While I could have switched schools for a better cheerleading program, I would not have changed my experience for the world! I had so many girls that looked up to me and there were girls that were scared until I talked to them! That is what has been the best, helping people that were doubting themselves, helping people realize they are good at something and last but not least having fun helping others. Cheerleading has made me who I am and I am proud of who it has made me."

"While I could have switched schools for a better cheerleading program, I would not have changed my experience for the world!"

**team photo** Jared Thompson, Newton Benegas, and Tosiff Tom getting out of the heat that surrounds the tennis court to relax and have some fun.

**above** Tosiff Tom in the moment. He is practicing hard to make his team members proud when gametime comes around.

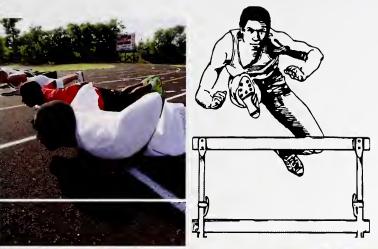

1 Kenneth Williams, Chris's hawn Hopkins, Coach Craig, Josh Lynn, and Christopher Gomillia posing outside of practice. This year the golf team was small but mighty, the boys put forth a great effoert to make Coach Craig proud.

## Golf and Track

Golf and track were two underexposed sports this year but they were composed of very dedicated athletes and supported by hard-working coaches and loving families that pushed them to their limits. Hopefully in the coming year these two teams will gain more members with the current absence of a football team.

# Crishawn Hopkins

Manual Redskin to Butler Bulldog

Redskins shooting guard, Crishawn Hopkins, will be attending Butler University. in the fall on a full scholarship to play basketball. Hopkins was never really noticed by colleges until the end of his junior year. Hopkins gained a lot of attention playing AAU. Butler wasn't Hopkins only offer, he also had offers from Indiana University, Louisville, and many other colleges. Hopkins said he chose Butler because, "They're a nationally ranked team, it's close to home, and they started a relationship early on and kept it up." Hopkins also said "Learning to manage his time well and keep up with the challenging coursework are

his only concerns for his future as a Butler bulldog." During Senior night/ Pack the House the very first shot made by either team was a slam dunk from Hopkins. This year he was the only Redskin to receive a full scholarship because of athletics to college this year. Hopkins' academic and athletic acomplishments will be taking him far in his future careers. All of the Redskins here at Manual are very happy with all of Hopkins' success as a Manual Redskin. On behalf of the whole school would like to wish him a lot of luck in his future as a Butler Bulldog, both academically, and athletically.

Bottom Photo: Some of the Manual wrestling team practicing against one another in oder get ready for upcoming matches

# Wrestling Team

This year's wrestling team had a little under twenty boys on the team. The group was coached by Mr. Paul Miller, a science teacher at Emmerich Manual High School. DeAira Mills was the team manager and their biggest supporter. The young men on this team worked hard to make the school proud.

The Manual Baseball Team was coached by Derrick Gilliam and Elliot Payne. This year the boys swung home with determination. With the sun beating down on them the boys took their dedication and and hard work further than home base. The team proudly represented Manual by making it to the highly anticipated tournament IPSAC. This year was a success for the Manual Redskin's baseball team. Way to go Redskins!

Kayla is a four-year starter. She is not the first in her family to play softball, her two older sisters played as well. She highly praises her fellow team mates for the hard work and effort they put in.

Ashley Justice

"A.J." has also been playing softball for four years. She moved to a starter position her junior year. To the players she leaves behind, she says, "This team is only headed up from here!"

This has been another highly successful season for Manual's softball team. Coaches Gadd, Davis, and Herman encouraged the girls to play harder than ever. They played a 10-1 season, their only loss was to Arsenal Technical High School. The team also swung their way to the finals of IPSAC, where they won first place for the seventh year in a row. Some of players were apprehensive since the star pitcher graduated last year but it inspired them to step up their game and work even harder. As coach Gadd would say "We don't rearm, we reload."

The Lady Redskins Softball Team

Below Coach Borum giving our Lady Redskins some encouraging words for a victory.

Bottom row from the left: Victoria Debolt, Rhonda Smith, Tonya Bahena, Brieanna Gorman, Lakisha Copeland, Ashley Howard

Above: Brieanna "Boogie" Gorman prepares for a foul shot.

### Girl's Basketball

This year, the Lady Redskins showcased their dedication and hard work at every game. The girls managed to keep their basketball skills sharp while keeping their grade point averages high. All sport players at Emmerich Manual High School must keep at least a 2.0 average GPA in order to participate in any sport. Parents and friends consistently cheered on the ladies at the games. Despite being Coach Borom's first year at Manual with the Lady Redskins, he established a good foundation upon which next year's success can be built.

Above our Lady Redskins basketball players on the bench ready to get in the game.

To the left: the Lady Redskins get ready for their game and have a word with Coach Borom.

Mrs. Newman-Smith
coached the Tennis Team
throughout the year along
with being the school's
Health teacher and a
supporter of Manual's
sports

Carl Lile

Coach Carl helped the tennis team get in shape for this year's season. He also helped out the other sport programs at Manual

Pictured at right is a group shot of the Girl's Tennis Team at Manual High School. In the back row from left to right is: Susan Lynn, Amber Tewell, DeAira Mills, Amber Pierce, Nicole Conover, and Tricia Tharpe. In the front row from left to right is Andrea Stanarevic, Maricela Aviles, Christina Stanarevic, Elisabeth Gomes. Most of the team were seniors this year with the exception of Maricela, Christana, and Elizabeth all of were hard working whom juniors this year.

The Manual Girl's Tennis Team hard in training for their upcoming season.

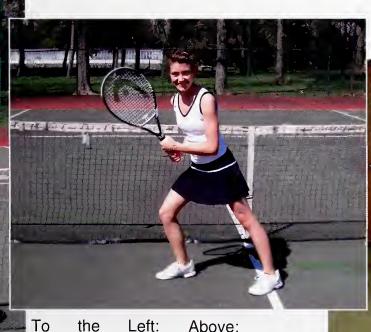

#### Senior Spotlight

For young pictured above this photo marks the end of a year in tennis and the end of high school. These seven girls managed to score well on and off the tennis courts, achieving high academic goals throughout the year. All seven girls were enrolled in either an AP or Dual Credit class and they all graduated with high marks.

# Life At Manual

# A year in the life...

Homecoming

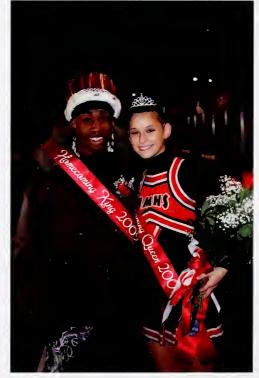

Spirit Week brought on a lot of anticipation for Homecoming Night which was a great time and a very intense game. Though Manual dominated the first half of the game we suffered a close defeat. We saw the crowning of perhaps our last Homecoming Queen (Tricia Tharpe) and King (Tarrell Humphries). After the game was over we had the Homecoming dance where there was plenty of food, music, and fun to go around.

#### Getting ready to fight...

# Onward, Manual,

On Forever,
Always to success!
Let your banner never waiver,
Failure ne'er confess! (rah, rah, rah)
Onward, Manual, Ever onward,
Make a glorious name;
Strive upward,
Strive and gain an envied fame!

# PROM 2010

#### A Whole New World

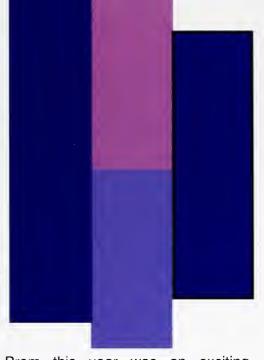

Prom this year was an exciting event. As has been done for over the past decade, Cheryl McManama was the faculty sponsor. It was held at Primo South, which has always treated Manual very kindly. prom Princess was junior Maricela Aviles. Manual's Prince was junior Donnie Massing. Prom Queen was given to senior Kelly Pendleton and prom King went to Chris'shawn Hopkins. After being crowned they participated in the traditional princess- prince, kingqueen dances to Alicia Keys' "If I Ain't Got You". Our prom also had other dances with all the students including a conga line, the Macarena, a formal Hispanic dance, and the Cha Cha Slide. To tie in with the theme of the prom the choir teacher Mr. Spencer Lloyd sung a romantic duet of "A Whole New World" with his wife Stacia. Prom was a very special night for two of the students who became engaged that night. Students were amused to see Ms. Franklin, a Vice Principal, and Mr. Grismore, our Principal, dancing together. For everyone involved prom was a great event.

Graduation at Manual H.S. is a much anticipated event.

Many of the students to walk across the hallowed platform are the first to do so in their respective families. The joy experienced is overwhelming for many and is evidenced by the tears, which streamed down their faces. For some of the graduates, the future holds college classes next Fall, for others it holds uncertainty. For all, it holds the promise of the possibilities a high school education can offer.

The educators at Manual see graduation as a bittersweet occasion. Bitter because the students they have poured into over four years are now leaving their tutelage to explore life beyond the walls of this institution for learning. Sweet

**above** Graduated seniors participate in a centuries old tradition of tossing their caps, upon receiving diplomas.

because like the eagle who pushes her eaglets out of the nest, there is no feeling like watching the students soar.

As the students move on, there will always be a sense of excitement to see what the future brings the graduates of Emmerich Manual H.S. where, for almost 115 years children have walked in the doors, and young, educated adults walk out. The students leave, but the vision, established from the inception of E.M.H.S. continues: Education of the Mind, Hand, and Heart.

**above** Principal Rocky Grismore leads the graduating seniors from the auditorium to the gym, where they would eventually receive their diplomas.

clockwise from top left: Dr. White, Superintendent of IPS gave an address to the graduating seniors. Rachel Tucker, a member of the Op. Center, wipes a tear from her eye on the joyful day. A silhoutte of Principal Rocky Grismore watches over the graduates. Senior Brent Jones, who weeks before did not know if he would have the necessary papers to get into college after graduation, proudly walked across the stage already accepted into a university next fall.

top Valedictorian Susan Lynn addressed the graduating seniors with words of encouragement for their future. bottom Tiffany Norris smiles before she received her diploma, proud of the work she had done to make it to graduation.

# Goodbye Mr. Grismore Good luck in your future

Mr. Richard 'Rocky' Grismore has been with Manual for five years. Students and staff members loved Grismore for his friendly and understanding personality. He cared for his students and staff members it showed through his support for them. Manual had the best graduation ceremony in IPS for five years in a row due to his hard work. Manual will not be the same after Rocky leaves. Though he will be missed as he starts his new beginning elsewhere, our best wishes go out to him as he leaves.

#### A Parting Word from Mr. Grismore:

I'll miss the "friendly" relationship with my students most. Being of help to a student when they just need a little direction, being trusted enough that the student will let me in to help, when students understand that my discipline and directions are just business and not personal and students that are respectful no matter the circumstances.

Favorite thing about Manual: Being able to trust that the student body would always rise to the bar that was set for them. The best commencements, mannerly and orderly assemblies and best behavior at dances, games and that.

Advice for Students: Set short and long term goals for yourself and your education. Pull yourself up by your own bootstraps. Any less than that is disrespectful of one self. Be strong and soar.

Thanks, Rocky Grismore

## Autographs & Remember Me's

# Autographs & Remember Mé's

# Autographs & Remember Me's

In Manual

Froud has been thy past!

Thy present full of promise

Thy future sure!

For forty years thou hast held the

torch of learning high.

Training of mind and hand and heart

Has been thy goal.

Un Manual!

Were's to thy coming days!

Youths and maidens for years to come

Shall at thy torch of learning

Light a beam to guide their footsteps far.

Skill and service shall their watchword be.

Those who lead and those who teach
Shall, as of old, in thy service here
The joy of high endeavor find,
And count no labor vain
That yields the rich reward of youth's firm purpose
On worthy object bent.

So open wide thy doors

And welcome all who enter here.

Lead them and guide them,

And when thy work with them is done,

Bid them God speed."to seek, to find, and not to yield!"

On Manual!

Lola I. Perkins February 18, 1935
